NowDocs Introduces NowPrint 8.1 Ready for an Upgrade? NowPrint Is!

North Mankato, MN July 25, 2012 - NowDocs International, Inc., the leading provider in patented Web-to-Print technology, has released the latest version of its web-based job submission and print production software tool, NowPrint 8.1.

This version is loaded with new features and restructured functionalities in NowDocs' continual effort to improve the user experience. One of the most notable enhancements to NowPrint is the Reports User Interface page, giving users updated information immediately with four all-new reports.

Is your company struggling to keep up with demand while trying to increase efficiencies? NowPrint has added a Credit Card Processing solution to its software to get your customers through the entire process faster, in the secure NowPrint PCI compliant environment.

NowPrint 8.1 also includes a number of prominent improvements and upgrades.

- Updated Report User Interface, including the brand new Catalog Items Ordered by User Report, Credit Card Transaction Report and Updated Inventory – Total Usage Report.
- The mouse-over zoom functionality has been added to the Approver and Buyer's Approval Preview page enabling users to view their data in a magnified window when changes are made to the document.
- Incorporated Adobe InDesign's Auto Font Loading feature, allowing you to upload fonts to the NowPrint platform bypassing the NowPrint Support team, saving you time and money.
- Improved Personalized Product List Builder allowing the administrator to more efficiently maintain list data.

"At NowDocs we understand how important progressive functionality is to you. With the new reporting features in NowPrint 8.1 it really helps you stay on top of your customers' total usage in the system," said Sam Froese, President of NowDocs, a Taylor Corporation company.

The NowDocs IT Technical Support team is always available to help with your web-to-print needs. They are available 24/7 for your convenience. NowPrint 8.1 is an upgrade that keeps our software on the cutting edge in the Web-to-Print industry.

About NowDocs

NowDocs International, Inc., part of the Taylor Corporation family, was founded in 1999. NowDocs is the leading provider of patented Web-to-Print and other Software-as-a-Service (SaaS) solutions for the printing and graphic arts industries. The company is headquartered in Mankato, MN, near Minneapolis, MN, but operates as a unique virtual enterprise, with employees and technology centers throughout the United States and Asia. The company serves the nation's largest and most recognized digital print providers, retailers, major corporations and universities. More Web-to-Print transactions flow through NowDocs' software than any other Web-to-Print provider in the world.

About Taylor Corporation

Taylor Corporation, one of the largest privately held companies in the United States, provides innovative products, technologies and services that focus on the evolving needs - personal and business - of more than half of the Fortune 500 companies and millions of small business and consumers around the world. With more than 80 domestic and foreign subsidiaries, Taylor is recognized as one of the top graphics communications companies in North America, delivering what matters most to its customers.
